Web Development Intern at Vizweb Solutions. Built responsive frontend components using HTML5, CSS3, JavaScript, and Bootstrap, applying skills directly to hands-on sample projects.

Projects

- Portfolio Website.**
 - My own Portfolio website has been developed for my exposure with JS , CSS and BOOTSTRAP.
 - This project is a responsive and user-friendly website designed with a clean and modern interface.
 - <https://github.com/Dharani-WebDeveloper/Dharani-Portfolio>
- Luxury Lunar [Hotel web]**
 - It's a first project developed using a HTML and CSS.
 - The project focuses on creating an attractive layout with smooth navigation and a good user experience.
 - <https://github.com/Dharani-WebDeveloper/Hotel-Lunar>
- Miller lights [Freelancing Project]**
 - Developed a fully responsive Project with bootstrap, HTML and CSS.
 - And this the first freelancing project and created for the customer idea.

Certification

- Java Full Stack Developer** - Profenna Technologies (2026).
